

FINAL YEAR PROJECT

Domain: Web Development

Technology used:

- Frontend- HTML, CSS, BOOTSTRAP
- Backend- DJANGO

Literature Survey for the Project:

Approximately 60-70% students are still unaware of the topics asked in companies, from where to start learning the topics and what questions to practice.

Objective:

To provide Study material and company specific practice sheets to all the students for the placement exams for free of cost.

Work Plan:

Website will consist of the following things: (all company specific)

- Eligibility Criteria
- Profiles + Packages
- Syllabus
- Study Material
- Practice questions (MCQ + Coding)

Students can also check their progress report individually.
